Hazardous Weather

Hazardous Weather

It will remain very hot through Thursday. A Heat Advisory will be in effect for much of southwest Texas and southeast New Mexico generally west of a line from Lamesa to Dryden through mid-evening Thursday for temperatures near 100 in the mountains to as high as 110 degrees over parts of the trans-Pecos.

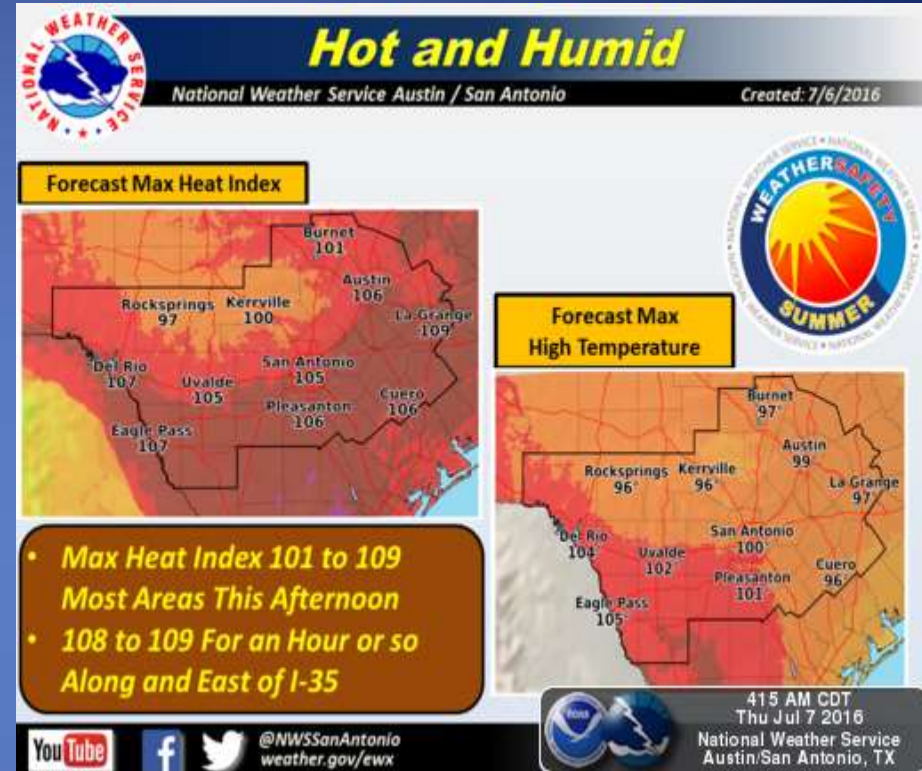

Very hot weather will continue today across west central Texas. Another Heat Advisory is in effect, for the northeastern Big Country through this evening. Expect another warm and muggy night with lows in the mid to upper 70s.

Hazardous Weather

A Heat Advisory remains in effect through 8 PM for those parts of North and Central Texas along and northeast of a line from Killeen to Mineral Wells to Breckenridge. Across the advisory area, heat index values will range between 105 to 108 degrees. Drink plenty of water and NEVER leave children or pets in hot cars!

Above normal high temperatures will continue across South Central Texas today, ranging from the mid 90s in the Hill Country to near 105 along the Rio Grande. A humid airmass will persist with above normal heat indices this afternoon into early evening. Maximum heat indices of 101 to 109 are expected this afternoon across much of South Central Texas with 108 to 109 for an hour or so in spots along and east of I-35. South to southeast winds of 10 to 20 miles per hour with gusts up to 25 miles per hour are expected.
